I love the whimsy and the variety of the available plants to choose from. I was always so worried about not being able to keep my lovely plants alive but a little education by Sara has shown me I can. Plus, the accompanying care information helps a lot. These have also been very well received when I have given them as gifts and, in fact, some of those recipients have become repeat clients of the business.

The benefits of workshops:

- Increased productivity
- Better team performance
- Develops company culture
- Recognition and motivation
- Improved employee retention
- Enhanced business reputation
- Opportunities for personal development
