

## *Everything in your planter can be reused!*

If you follow your care card, your plant should live indefinitely.

However, should your plant die, **please don't throw your planter goods in the garbage!**

### Tips:

- ☆ **Remove buddies** (they don't think about themselves as toys!). If you don't plan to reuse in a planter, remove sticks, which does turn them into toys (but don't tell them that).
- ☆ **Remove pebbles/gems:** Pebbles can be reused in another planter or in the garden. Use a strainer to wash gems, reuse for another planter, craft project, or vase decoration.
- ☆ **Dirt and plant(s)** can be recycled in the garden or composted. Cut the plant(s) down and put into the lawn bag, reuse the dirt & roots.
- ☆ **Your bowl can be used again** for another planter, cleaned and used as a decorative or household bowl – **no liquids please** – they have draining holes. Don't use for hot foods or in the microwave!

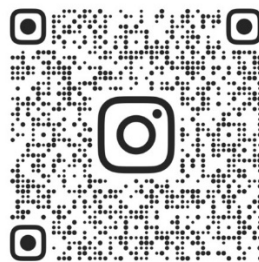

## *25% Class Discount Coupon!*

Bring your planter and materials to refresh your vignette! It's a fun experience in a beautiful environment!
